BOONE POWELL, ADMINISTRATOR

January 12, 1965

Michael E. DeBakey, M. D., Chairman
Presidential Commission on Heart Disease,
Cancer and Stroke
1200 M. D. Anderson Blvd.
Houston, Texas

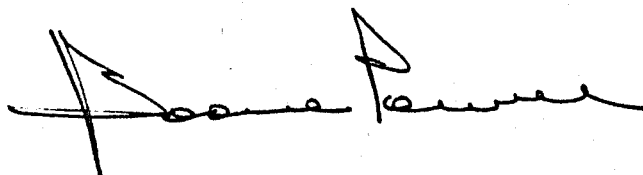

Dear Dr. DeBakey:

I have received a copy of a letter written to you on January 6, 1965, by Miss Joan K. Grayson, R. N. who is interested in a position with the Presidential Commission on Heart Disease, Cancer and Stroke. I have known Miss Grayson for a number of years, and she asked that I write you concerning her interest and also her ability.

Miss Grayson is a very competent nurse with considerable administrative ability. She was associated with the Linde Company for several years and was also consultant in establishing departments of Inhalation Therapy in hospitals throughout the country. Those of us at Baylor University Medical Center who worked closely with her have the highest respect for her ability and dedication.

I hope if you have an opportunity to visit us here in Dallas sometime, I will be able to show you some of the progress that has been made on this campus.

With warmest personal regards,

A handwritten signature in dark ink, appearing to read "Boone Powell", with a stylized, sweeping flourish at the end.
